

VANESSA MANAGO

FILMMAKER · SPEAKER · FOUNDER · WORLD BUILDER

KEYNOTE SPEAKER
SPEAKER SHEET · 2026

I DON'T GIVE TALKS. I BUILD A **WORLD** YOUR ROOM WALKS INTO.

Every keynote is a custom-built experience with an entry, a journey, and an exit – engineered so that no one in the room leaves the same. Not an audience informed. A room transformed.

THE BIO

Vanessa Manago is a filmmaker, founder, and keynote speaker who has spent nearly two decades building worlds for a living. She has produced award-winning short films, produced video work entrusted to her by Grammy-nominated recording artists including a Grammy winner, run two television stations, led a half-million-dollar renovation of broadcast facilities, and built a 4K streaming studio from the ground up – for the Department of Defense, Newsweek, and other institutions that shape how millions of people see.

She brings that same architecture to the stage. Rather than deliver a speech, she designs a customized live experience tailored to each room – a complete world with an entry, a journey, and an exit that shifts perspective and moves people to act. It is the same method behind AIRLUMN Live Experiences, the platform she founded to open that transformation to global audiences.

SHORT VERSION

Vanessa Manago is a filmmaker, founder, and keynote speaker with nearly two decades running television stations, upgrading broadcast facilities, and building a 4K streaming studio from the ground up. She designs customized keynote experiences that transform everyone in the room – the same method behind her platform, AIRLUMN Live Experiences.
